Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, 7-11, 16-20, drawn to a fuel cell.

Group II, claim(s) 4-6, 12-15, 21, 22, drawn to a separator.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of "in which the fuel electrode layer and an oxidant electrode layer are arranged on both surfaces of a solid electrolyte layer" present in Group I is not present in Group II.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

If Group I is elected, an election of species is required.

- I-a Claims 1-3, drawn to a fuel cell with separators with gas discharge openings, as disclosed on pg. 8-10 in the specification
- I-b Claims 7, 10,11,20, drawn to a fuel cell with indented separators, as disclosed on pg. 11 in the specification
- I-c Claims 8, 16,18, drawn to a fuel cell with protruded separators, as disclosed on pg. 12 in the specification

I-d Claims 9, 17,19, drawn to a fuel cell with indented and protruded separators as disclosed on pg. 12 of the specification

If Group II is elected, an election of species is required.

II-a Claims 4-6, drawn to a separator with gas discharge openings, as disclosed on pg. 10 in the specification

II-b Claims 12, 15, drawn to an indented separator, as disclosed on pg. 15 in the specification

II-c Claims 13, 21, drawn to a protruded separator, as disclosed on pg. 15 in the specification

II-d Claims 14, 22, drawn to an indented and protruded separator as disclosed on pg. 15 of the specification

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

Art Unit: 1745

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

A telephone call was made to Mr. Jeff Filepek on 11/23/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cynthia Lee whose telephone number is 571-272-8699. The examiner can normally be reached on Monday-Friday 8:30am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Application/Control Number: 10/506,526
